WHO IS MRS. WINSLOW?

As this quesion is frequently asked, we will sim. ply say that she is a hely who for upwards of forty years has untiringly devoted her time and talents as female physician and nurse, principally among hildren. She has especially studied the constituion and wants of this numerous class, and, as a re sult of this effort, and practical knowledge obtained in a lifetime spent as a nurse and physician, she ha compounded a Soothing Syrup for children teetting. It operates like magic, giving rest and health consequence of this article Mrs. Winslow is berace. Children certainly do RISE UP and bless her. Especially is this the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has im-mortalized her name by this invaluable article, and we sincerely believe thousands of children has been saved from an early grave by its timely use,
